

“Old World Traditions - New World Blends”

Bonded in 1984 - Shasta County's Oldest Winery

Matson Vineyards is a family-operated boutique winery located just east of Redding, California. Our original vineyard was planted in 1981, and the winery was officially established in 1984.

We continually strive to explore the incredible diversity of grape varieties that exist and the flavors that can be elicited from them. The evolution of unique wines at our winery requires experimentation with the singular growing conditions here in Shasta County. Employing esoteric, high potential varietals combined with the desire to discover the subtle ways in which blending of wines can yield dramatic results has been our passion for 25 years.

We invite you to join us in investigating the vast unexplored world of Shasta County wines.
